## Instrumental

Every time I think of you you get a little smaller  
Hills glow gold as the rays of the sun go

Sun's gettin' lower and the shadow's gettin' taller  
High above the water see the clouds sit solo

Light gets caught in the tree top branches re-released to the fire as the tree becomes ashes  
The whale can dive to the bottom of the ocean frozen in time frozen in motion.

Work while you can and sleep while you're able

Price keeps risin' and the kids are gettin' bolder. E'vry time I think of you you get a little older. A ...

little bit softer and round at the shoulders.

So far a-
